Reason for allowance

1. The following is an examiner's statement of reasons for allowance: Applicant's invention is designed to be used in a video game playing environment where players save their various game data in the game memory in a fashion which later allow players to easily retrieve their saved data by the priority.

2. Prior art of record teaches the saving game data after playing a video game and then later retrieving it from the game memory either by a flag or a name, however this kind of retrieval of the game data do not allow players to easily access what is important to the players in a quick easy way, which in turn can cause frustration of searching and finding the saved data. Applicant's invention overcome this shortcoming by prioritizing and non-prioritizing game data when its saved in the memory by separating the storage area within the memory shown on FIG 3, which helps players to easily access the desired data.

Prior art of record fails to teach following limitations in combination with the limitations of independent claims 1, 6-10 and 13, *"wherein the priority and non-priority primary game data is stored in the secondary memory in a priority region or a non-priority region, respectively, of at least one primary data file based on user prioritization,*

wherein the priority region and the primary data name information region of the primary data file are read out and stored in the main memory, and wherein play-target data related to the play-target data name is acquired from the priority region of the primary data file stored in the main memory if target data relating to the target data name is

stored in the priority region of the primary data file, and target data related to the target data name is acquired from the non-priority region of the primary data file stored in the secondary memory if game data relating to the target data name is stored in the non-priority region of the primary data file, and the game program is controlled based on the acquired play target data."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
